The public has taken things the wrong way. Meetings haven't been nice. Need to make decisions on what the board understands. Member of board frustrated and feeling negative. Chairman feels meetings are out of control. People vs campground. People formed a committee and that's how the rezoning started. The board is doing their best, not experts. Zoning is county and town could do their own. Discussion of letting people have smaller lots vs others. Discussion of modification for lake lots. Discussion of keeping meetings under control and limiting time for people to speak. People have asked board members to meet and explain their views outside of town meetings.
